IV. Data processing in our games

In our games, we can track and analyse various actions at the player level to improve the game experience and the stability of the application. For example, the data collected allows us to check whether the application is working properly around the world. The data is also used to identify and fix software bugs when they occur. No data such as images, documents or other personal data unrelated to the application is accessed or collected by the application. Our collection and use of data helps to ensure that you can access your games as easily as possible and get the best service and gaming experience we have to offer.

This includes, in particular, contact data provided during registration and your actions in the game. In addition, we collect your connection data, such as the IP address. The processing of this information is necessary for the implementation of the game operation and is therefore carried out on the legal basis of Art. 6 Para. 1 Sentence. 1 Letter b DSGVO.

The personal data collected, used and processed is stored on our servers and on the servers of the following service providers cooperating with us.

You can view the privacy policy of the service providers at the following link:
